

# Investing in a New Water Future for Jackson

## A Message from JXN Water

Effective March 23, 2026, JXN Water will increase the usage rates for water and sewer service to support continued progress across our city's water system.

Rates will increase 11.7 percent for all customers. The average single family monthly bill will increase by about **\$10 per month** to approximately \$88 per month for water and sewer service.

This change reflects the real cost of keeping water flowing — and our promise to never go back to the crisis conditions of the past. Every dollar will be used to support repairs, strengthen operations, and build the system Jackson deserves: dependable, sustainable, and built for the future.

For exact information about how this increase might impact you visit [jxnwater.com/rates](https://jxnwater.com/rates) or call us at 601-500-5200.
